Monday. Mrs. J. W. Dickenson and Mrs. Charles Stu gls, were struck by lightning during a severe thunder storm Saturday night at Battle Creek. By an explosion at the Lake Superior Powder Company's nitro-glycerine in Marquette Monday morning, four men were blown into fragments. One thousand pounds of nitroglycerine exploded, blowing the building and

contents to atoms, and cutting off trees as large as a man's body. The killed are Charley Hatch, Peter Dodge, Herman Extrom and a Cornish man, name unknown.

While some scientific young gentlemen from Adrian were demonstrating before an assem bly of farmers at Madison grange last week, an iron retort exploded with much force, start ling the audience and injuring the experimenters. The hand of Ed. Treat was lacerated. necessitating the amputation of one or two index fingers, and the face of Mr. Bredon was badiy disfigured.

Another test sait well is to be sunk at Che boygan, in another part of the city. Fenton's high school, it is stated, has fur

nished material for four runaway matches the past year. The latest was last Wednesday, the parties being Belu Kirby aged 19, and Gerty Philips, aged 22.

Mystery attends the fate of Bridget Daws found dead in the streets of Grand Rapids Feb 28d. Her husband and sons testified that they never knew her to use liquor, and that their home life had always been pleasant. When the body was found, it had on no drawers, the skirts were thrown up above the knees, and the dress was open at the neck. The coroner states that since the inquest began, fragments of a woman's drawers bave been found in the vicinity of where the body lay. The coroner is half inclined to the belief that the woman was drugged by some half drunken rowdies. who kent her wandering about the streethalf the night and then le't her alone to die it the cold, after diverting her of certain articles of underdress and possibly violating her per-

AN UNUSUAL FURORE.

A Recent Excitement Investigated by the Herald and the Results Made Public.

(Cleveland, O, Herald.)

A few weeks ago we copied into our col mus from the Bochester, N. Y. Democrat and Chronicle "A Remarkable Statement," made by J. B Henior, M. D., a gentleman who is well known in this city. In that article Dr. Hen ion recounted a wonderful experience which befell him, and a few days thereafter we pub lished from the same paper a second article, giving an account of the "Excitement in Bochster," caused by Dr. Henion's statement. In the first article Dr. Henion stated that for a the first article Dr. Heolon stated that for a number of years, up to last June, he had been afflicted with what seemed at first a most mysterious trouble. He felt unaccountably tired at frequent intervals; he had dull and indefinite pains in various parts of his body and head, and was very hungry one day and entirely without appet to the next. However, as a physician he thought, and so did his fellow physicians, that he was suffering from ma laria.

But yet he grew worse, and was finally obliged to give up a large and lucrative prac-

physicians, that he was suffering from malaria.

But yet he grew worse, and was finally obliged to give up a large and lucrative practice. Still he was not conscious of his danger, nor that a monstrous disease was becoming fixed upon him, although all his organs had become gradually weakened. The symptoms above described continued, accompanied by others of an aggravated nature, and he notices a peculiar color and odor about the fluids he was passing; that they were abondant one day and very scanty the next, and were covered with froth, or filled with brick duet sediment. But even then he did not realize his real and alarming condition. At last, however, he was brought face to face with the fact that he was a victim of a most territle disease, and he made heroic efforts for recovery. He traveled extensively and consulted the best physicians, but they could give him only temporary relief, and that principally in the form of morphine. And so he grew steadily and constantly worse undi his if e became a torture. His pulse wauncontrollable. He lived wholly by injections and for six days and nights he had the hic coughs constantly, which are considered the sure indications of coming death.

When hope and life were nearly exhausted his paster, the Rev. Dr. Foote, rector of St. Pau's church, strongly urged him to try a means which the revere d gentleman had seen used with remarkable results. He objected at first, but finally consented, and was conscious of an improved condition the first week. His pains gradually disappeared; his stomach resumed digestion; his heart became regular; his headaches disappear d; he had no morechills and fever, or ac dity of the stomach; he gained twenty-six poun's in three months, and is a well man to day, being entirely curse of a most pronounced case of Bright's disease.

Although conrecious of the consequences from his professional brethren, still as a duty to his fellow mer, and according to a vow he made on what he thought we shis dying be d, he published a card detailing his illness a

CAUSED BY BRIGHT'S DISEASE OF THE KIDNEYS. It has no distinctive symptoms of its own (inde d, it often develops without any pain whatever in the kidneys or their vicinity.) but I as the symptoms of nearly every other known complaint. Hur dryds of people die daily why se burials are authorized by a physician's certificate of "Heart Disease," "Apoplexy," "Paralysia," "Spinal Complaint," "Rheumatism," "Pneumonis," and other common complaints when in reality it was Bright's disease of the kidneys. Few physicians, and fewer people, realize the extent of this disease or its dangerous and insidious nature. It steals into the system like a thief, man feets its presence by the commonest symptoms, and fastens taself upon the life be fore the victim is aware. It is nearly as hereditary as consumption, quite CAUSED BY BRIGHT'S DISEASE OF THE KID itself upon the life before the victim is aware. It is nearly as hereditary as consumption, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly and as such is a sually supposed to be heart diese sa."

The second article entitled "Excitement in

Rochester," was made up of laterviews with Dr. Henion himself, who confirmed all said in his card, and also with Mr. H. H. Warner. I The latter gentleman did not regard Dr. Henion's case as particularly exceptional, becaus, he had known of very many such cures by the same means in all parts of the land. Kidner ease, he said, are carrying off tens: ands every year, while Bright's d'sea; easing 250 per cent, a decade, and y people do not realize it or seek to git until too late. He related how a New to eans medical professor, lecturing on this disease, thinking to show his class what healthy fluids were, subjected some of his own to a chemical test, and although he had no suspicions of it before, discovered that he, too, had the dreadful disease, which proved fatal in less than a year. There was also an interview with the celebrated chemist of the New York State Board of Health, Dr. S. A. Lattimore, who said he had analyzed the remedy which cured he had analyzed the remedy which cured Dr. Henior, and found that it "was entirely free from any poisonous or deleterious sub-stances."

We have made these condensations in order that all the materal facts may be set before our readers. Since the publication of these two articles, having been besieged with letters of inquiry, we sent a communication to Dr. Henion and also one to H. H. Warner & Co. asking if any additional proof could be given us as to if any additional proof could be given us as to the validity of t e statements published. In answer thereto we have received the following letters, which add interest to the entire sub-ject, and wholly verify every statement hitherto

### RO"HESTER, N. Y., Feb. 2, 1882.

GENTLEMEN: Your favor is received. The pubished statement over my signature, to which you refer, is true in every respect, and I owe my life and present health wholly to the power of Warner's Safe Kiney and Liver Cure It is not surprising that people should question the statuent I made, for my recovery was as great a marvel to myself as to my physiciaus and friends. J. B. HENION, M. D.

ROCHESTER, N. Y., Jan. 81, 1882. Sins: — Acknowledging your favor duly received, we would say: The best proof we can give you that the statements made by Dr. Henlon are entirely true, and would not have been published unless strictly so, is the following testimonial from the best citizens of Rochester, and a card published by Rev. Dr. Foote, which you are at liberty to use if you wish.

H. H. WARNER & Co.

To whom it may concern;
In the Bochester, N. Y., Democrat and Chroniels of December 31, 1881, there appeared a statement in the form of a card from D. J. B. Henion of this city, recounting his remarkable resovery from Bright's disease of the kidneys after several doctors of prominence had given him up, by the us of a preparation manufactured in this city and known as Warner's Safe Kidney and Liver Curs.

Cure.

We are personally or by reputation acquainted with Dr. Henion, and we believe he would publish no statement not literally true. We are also personally or by reputation well acquainted with H. H. Warner & Co., proprietors whose commercial and personally whose commercial and personally whose commercial and personally. quainted with H. H. warner & Co., proprietors of this remedy, whose commercial and personal standing in this community is of the higher order, and we believe that they would not publish any statements which were not literally and string by true in every particular.

John Van Voornis, (Member of Cougress.
Charles E. Firon. (Editor Democrat and
Chronicle and Regent of the University. To the Editor of the Living Church, Chicago Ill.: Will you allow the following card, personal to myself, to appear in your widely circulated paper?

There was published in the Rochester Demorat and Chronicle of the 31st of December 1st, a statement made by J. B. Henlor, M. D. narrating how he had been cured of Bright's disease of the kidneys, almost in its last stages, by the use of Warner's Safe Kidney and Liver Cura. I was referred to in that statement, as having recommended and orged Pr. Henlor to try the remedy, which he did, and was cured.

Now the republishing of his statement in many of the leading jour als of the day habeen the cause of an incessant flow of letters to me making many inquirier, but chiefly whether the statement is true, or a mere advertising dodge, etc., etc.

I beg, therefore to anticipate any further inquiries and save time and labor, and some postage, by saying that the statement of Dr. Henion is true so far as it concers myself, and I believe it to be true in all other respects. He is a parishioner of mine and I visited him in his s'ekness. I urged him to take the medicine and would do the same again to any one who was troubled with a disease of the kidneys and liver

ISBAEL FOOTE, (D. D.,)

Recter of St. Paul's church.

Rochester N. Y. Jan. 28, 1882.

The German wife of the Grand Duke Vladimir has a will of her own, and is not disposed to submit to the peculia regulations of the Russian Government. She discovered not long ago that a letter which she had written to her family, and in which it is said that she complained of the dullness and insecurity of life at the Russian Court, had been opened by her own personal aid-de-camp before delivery to the post. The angry Grand Duchess complained to the Emperor, but, to her astonishment, met with no sympathy from him. Still more enraged, she delivered her emphatic decision that if the offender was not immediately dismissed she would make a public scandal and quit the country. The aid-de-camp was dismissed, but only to receive a much more lucrative appointment.

The Cleveland Herald states that the Chicago hotel at which Oscar stops prints the pork portion of its bill of fare in Latin. Oscar is an Oxford man and can read Latin, so that there seems to be no use in trying to deceive him with "In hog signo vinces," "Quid est hog," "Hog est quid," or anything of that kind. It would have been much more methetic to say pig at once in fullface caps. Hogs are not unknown in England .- Now York Commercial Ad-

Since that terrible smash-up on the New York Central, nineteen members of the legislature have returned their free passes to Mr. Vanderbilt. The presumption is that they will walk to and from the capital hereafter-when sufficiently sober.

A Railroad Official Interviewed.

their life of exposure to the elements is productive of much rheumatism among them, and they suffer considerably from pains, the result of cold, bruises, sprains, &c. St. Jacobs Oil. is a favorite remedy with these men, because of the splendid service it renders them. Captain Schmidt, of Tompkinsville, Staten Island, N. Y., says that he has been a great sufferer from rheumatism for many years. He had severe theumatic pains in nearly every portion of his body, and suffered so that at times he would be entirely unable to attend to active business. He said: "I am quite well now, however, and, as you see, I am able to work without any trouble. I attribute my recovery entirely to St. Jacobs Oil., for I felt better as soon as I commenced to use that remedy; and whenever I feel ampthing like rheumatism conting on, I rub the place with the Oil, and it always does what is claimed for it. Finding St. Jacobs Oil did me so much good, I got my family to use it whenever they had any pains or colds, and it has done good in every case when they have tried it. I can say that St. Jacobs Oil is a mighty good rheumatic remedy, and I don't intend to be without it." This experience is such as has been enjoyed not only by yachtsmen and others, who follow the water, but by people in every walk of life and variety of pursuit the whole world over. Not every one so cheerfully communicates his knowledge and opinions as recently did E.L.Loweree, Esq.,cashier of the Cincinnati Southern Railway, that splendid outlet to the South from that spiendid outlet to the south from the Ohio. Our representative waited upon Mr. Loweree, and in reply to cer-tain questions the latter gentleman ob-served: "I was suffering from a very severe attack of rheumatism in my right foot; it was in a terrible condition; the pain was almost intolerable; our family physician waited on me without success; I sent for another wellknown M. D., but even the twain could do nothing for me; I could not get down here to the office to attend to my duties; in fact I could not put my foot under me at all, and after nine week,s suffering I began to grow des-The second article entitled "Excitement in perate," was made up of interviews with perate, "was made up of interviews with perate, "kenion himself, who confirmed all said in you know, for he is known by everybody), Mr. Stacey Hill, of the Mount Auburn Inclined Plane Railroad Co. called to see me; he spoke very highly of St. Jacobs Oil, and recommended the remedy to me in glowing terms. I laughed at the idea of using a proprietary medicine, and yet the party recommending it, (Mr. Stacey Hill, remember), being a man of sound judgment, set me to thinking the matter over. THAT MUSICAL WONDER! The next day, when the physicians call-

ed, I dismissed them, and said to myself that I would let nature take its course. That resolution lasted just a day. On the following morning I, in fit of desperation, sent a servant for bottle of St. Jacobs Oil. I applied that wonderful remedy, and it penetrated me so that I thought my foot was about to fall off, but it did not; in fact it did just the opposite. The next morning the pain had entirely left my foot, the swelling was reduced, and really the appearance was so different altogether from the day before, that it actually surprised me. I applied more of the St. Jacobs Oil, and that afternoon I walked down here to the office, and was able to attend to my duties and get around as well as any one. Let me say for St. Jacob's Oil that it beats railroad time, and is alway sure

to win.—Cincinnati Enquirer. Oscar Wilde stole the epithet 'scribbling animalculae,' which he applied to American newspaper reporters, from Chas. Reade.

From an extensive use of St. Jacobs Oil in the editor's family, we are able to speak confidently of its great worth in numerous ailments, and fully recommend it as an article most desirable to have on hand in the medicine chest .-Stamford (Conn.) Herald.

"F.cis Tell The Ltory."

B LTIMORE, Ld . Jan 17, 1882. Mr. H. B. STRVRAS:

Mr. H. R. STEVELS:

Heretofore, I have been strongly opposed to all proprietary medicines, but, as there is an exception to most rules, I feel that my prejudice against patent medicines has had a fearful shock in the case of your Vegetties, and has been compelled te give way before the stronger evidence of facts. About two years ago, I was induced to give a fair trial of your Vegetties, as a detergent in some Strumous (Corotulosis) cases of hereditary transmission, attended with a selling of the tymphatic glands and joints, exitous ulcerations of bones and constitutional sphillite taint, &c., and in justice, I feel I should be derelied to duty, did I not testify to the great value of your Vegetties. Without exception, I have found it an admirable adjunct in the removal of the above constitutional disturbances. I am onew using it freely in any practice. I am aware that I am rendering myself amenable to the charge of unprofessional conduct in thus outraging the rules of medical ethics, in fostering a so-called Quack Medicins. This is simply Bosh! Facts tell the story, and I again use rt that Vegetties is a valuable adjunct to our Materic Medica. If this testimony to its value will sell only one more bottle, I shall feel that I have done some poor sufferer a cameritan benefit.

Fours very truly,

Yours very truly, JARVIS H. WILCOX, M. D.

# The Cancer Medicine.

NEWMARKET, Ont., March 21, 1881. Mr. H. R. STRVENE - Lear Str.: This is coertify that I have used your Vicertine for Chaoer, and can cheerfully say it did more good than the dos-tor's medicines or any other remedy I used, and I would recommend it to every one troubled with Cancer or Cancerous Humor. Yours truly. THOS GILL, Youge at.
